- ✚ Meets Australian and NZ Standards
- ✚ Stamped Australian and NZ Approval
- ✚ Tempered Safety Glass
- ✚ 2.5mm Beveled Edges
- ✚ All Sides Polished
- ✚ Modular Glass Panels
- ✚ Frameless

Ultra Glass Modular Fencing is a frameless and ultra seamless tempered Safety Glass system that is perfectly suited for use around swimming pools, on patios, decks, for gates and a host of uses where up-market aesthetics and practicality are of paramount importance.

It is easy to install in-ground in PVC channels, or above the ground firmly held by quality Stainless Steel D-Clamp supports.

All Ultra Glass Panels are manufactured, approved and stamped to Australian and New Zealand Standards.

And, as with all our products, Ultra Glass Modular Panels represent an unprecedented combination of quality and value.

Panel Sizes

In-Ground (Seamless): 1300mm Height, 12mm Thickness.

Above-Ground (D-Clamp System): 1135mm Height, 12mm Thickness.

Modules of 800mm, 1000mm, 1200mm, 1500mm and 2000mm.

Gates (Including Hardware):
